

# Microsoft Publisher

## Level 1

### Course Description

You're starting Microsoft Office Publisher , which is an easy-to-use, flexible program for creating newsletters, brochures, business cards, postcards, flyers, among others for print, email, and the web. In this course, you will look at how to create a publication from scratch or use one of the hundreds of business and personal designs available in Publisher.

### Course Objective

You will create, format, revise, and distribute publications.

### Pre-requisites

This course assumes that you are familiar with using personal computers and word processing. You should be comfortable in the Windows environment and be able to use Windows to manage information on your computer. Specifically, you should be able to: launch and close programs; navigate to information stored on the computer; manage files and folders; and select text. One of the following courses are recommended, or you should have equivalent knowledge of: Microsoft Windows 7 or Microsoft Windows 10.

### Course Content

#### Module 1 - Laying out a New Publication

- Using a Template
- The Publisher Window
- Using the Zoom Tool
- Saving, Closing and Opening a Publication
- Publications with more than one page
- Using Help
- Printing

#### Module 2 - Working from a Blank Page

- Opening a Blank Publication
- Layout and Ruler Guides
- Working with Objects
- The Snap Command

#### Module 3 - Working with Text

- Working with Text
- Creating a Text Box
- Manipulating Text Boxes
- Formatting Text
- Adding Pages to your Publication
- Viewing a Two-Page Spread

## **Module 4 - Special Text Tools**

- Create WordArt
- The WordArt Effects
- Special Effects in WordArt
- Working with Tables
- Adding Text to Table Cells
- Table Rows and Columns

# Microsoft Publisher
